Company

Application form for Load Facility Registration

including explanatory notes

IMPORTANT: Please read this carefully before completing this form. Italicised words and expressions used herein (but not otherwise defined herein) shall have the same meanings respectively ascribed to them in the Singapore Electricity Market Rules.

Why do you need to complete this form?

Under the *market rules*, if you are not a *market support services licensee*, you are **not permitted** to participate in the *real-time markets* or to cause or permit any *physical service* to be conveyed into, through or out of the *transmission system* unless you have been registered by the *EMC* as a *market participant*, and your facility to or from which the *physical service* is to be so conveyed has been registered by the *EMC* in accordance with the *market rules*.

The *EMC* is licensed by the Energy Market Authority (the “*Authority*”) to operate the *wholesale electricity markets* (to which the *real-time markets* form a part) in Singapore. One of the *EMC*’s responsibilities is to manage the registration of facilities in the *wholesale electricity markets*. You must complete and submit this form to apply to have a facility registered by the *EMC* if you wish to participate in the *real-time markets* or to convey any *physical services* into, through or out of the *transmission system* from a *load facility* and that facility is required or permitted to be registered under the *market rules*.

Why did EMC develop this form?

The *EMC* has developed this form for applicants to apply for the relevant facility registration described in the *market rules*. You should read the relevant sections of the *market rules* prior to completing this form. Please also read the *EMC* disclaimer at the end of this form.

Who is eligible to apply for registration?

You must be registered as a *market participant* before you are eligible to apply for registration of your facilities.

If you are only granted *conditional registration* as a *market participant*, you may also apply for registration of your facilities, but your facilities will not be registered unless you become registered as a *market participant* within the relevant conditional registration deadline.

What type of load facility is eligible for registration?

Any type of *load facility* which is capable of providing any class of *reserve* to the *real-time markets* in accordance with the *market rules*, *market manuals* and *system operation manual* is eligible to apply.

What type of reserve can you offer?

You can offer primary *reserve*, secondary *reserve* and contingency *reserve* from your *load facility*.

How is reserve scheduled for your load facility activated?

For primary *reserve* and secondary *reserve*, your *load facility* will be automatically interrupted by devices such as Under Frequency Relay (UFR), when the system frequency drops below the pre-set frequency for the pre-defined duration (if any) as specified in the *system operation manual*.

For contingency *reserve*, the *PSO* will advise the *dispatch coordinator* of your facility to interrupt your *load facility*. The *dispatch coordinator* must reduce the *load* of your facility by the amount of contingency *reserve* scheduled within 10 minutes of the instruction being given by the *PSO*.

When can you restore your load after interruption?

If your *load facility* is issued a *dispatch instruction* for *reserve* and interrupts or decreases its *load* under the *market rules*, *market manuals* or *system operation manual*, its *load* shall not be restored until and unless directed or permitted by the *PSO*. As indicated in the *system operation manual*, such direction or permission is expected to be typically given within 30 minutes of the *load* interruption or decrease.

When will you know the outcome of your application?

The *EMC* will notify you in writing of the outcome within 30 *business days* of the *EMC* being satisfied that your application meets all the requirements for *load facility* registration under the *market rules*, the applicable *market manuals* and the *system operation manual*. If your application is declined, the notification will identify why this was the case. A duly and accurately completed form will expedite the *EMC*’s processing of your application.

What should you do if you have more than one facility to register?

Please fill in a separate form for **each** application for registration of a *load registered facility*. You can download additional copies of the form from the *EMC* website at www.emcsg.com.

Is there an application fee for your application to register your facility?

There is no application fee payable for your application to register your facility.

Summary of registration requirements for a load registered facility

The key requirements for the registration of a *load registered facility* are outlined in the table below:

<p>A Meet the EMC's requirements</p>	<p>You must be sure that</p> <ul style="list-style-type: none"> • your facilities and equipment meet all applicable technical requirements set forth in the <i>market rules</i>, any applicable <i>market manuals</i> or <i>the system operation manual</i>; and • you are able to perform all the functions and obligations applicable to you under the <i>market rules</i>, <i>market manuals</i> or <i>system operation manual</i>. <p>If your facility is located outside of Singapore, the EMC may impose additional requirements for the registration of your facility.</p>
<p>B Meet the PSO's requirements</p>	<ul style="list-style-type: none"> • You must complete the PSO's Interruptible Load Facility (ILF) Standing Capability Data Form, meeting all the applicable technical requirements and attaching any required documents during submission. • The registration of your facility is subject to the PSO advising the EMC that such facility poses no threat to the <i>reliability</i> or <i>security</i> of the <i>PSO controlled system</i>.
<p>C Prepare and attach required documents</p>	<p>You must duly complete this application form in respect of your facility and provide all required supporting documents with your application, including the following:</p> <ul style="list-style-type: none"> • A certified true copy of your duly executed <i>connection agreement</i> with the <i>transmission licensee</i> for your facility. • An original duly completed and executed Certificate and Undertaking (in the form and on the terms prescribed in Appendix A of this application form) for your facility. • An original duly completed Interruptible Load Facility (ILF) Standing Capability Data Form required by the PSO for your facility. (Please refer to Appendix B of this application form.)
<p>D Standing Offer Data</p>	<p>You must comply with section D of this application form.</p>
<p>E Registration as a load registered facility</p>	<p>Your facility will be registered as a <i>load registered facility</i> if the EMC is satisfied that your facility meets all the requirements for such facility registration under the <i>market rules</i>, the applicable <i>market manuals</i> or the <i>system operation manual</i>. The EMC will notify you of the terms and conditions of the registration in an official notice to you. If your application is declined, the EMC will write to you stating the reasons.</p>

How can you find more information?

Request for Transfer of Registration of Load Registered Facility

including explanatory notes.

IMPORTANT: Please read this carefully before completing this form. Italicised words and expressions used herein (but not otherwise defined herein) shall have the same meanings respectively ascribed to them in the Singapore Electricity Market Rules.

Why do you need to complete this form?

The *EMC* is licensed by the Energy Market Authority (“*Authority*”) to operate the *wholesale electricity market* in Singapore. One of the *EMC*’s responsibilities is to manage the registration of facilities in the *wholesale electricity market*, including the transfer of registration of *load registered facilities*. You must complete and file this form with the *EMC* to request to have the registration of your *load registered facility* transferred to another *market participant*.

Why did EMC develop this form?

The *EMC* has developed this form to facilitate the transfer process described in the *market rules*. You should read the relevant sections of the *market rules* prior to completing the forms. Please also read the *EMC* disclaimer at the end of this form.

Who is eligible to request for transfer of registration of a load registered facility?

The *market participant* whose registration of its *load registered facility* is to be transferred (the “*transferor*”), may, after this form is duly completed, file this form with the *EMC* to request to transfer the registration of that *load registered facility*.

Who is eligible to be identified as a proposed transferee in a request for transfer of registration of a load registered facility?

A person who is an existing *market participant* or a *participation applicant* may be identified as a proposed transferee in this form if:

- it is willing and able to assume control of the *load registered facility* with effect on and from the effective date of transfer of registration of the *load registered facility*[†];
- where it is an existing *market participant*, it is not a *suspended market participant*, and
- where it is a *participation applicant*, it is, to the *EMC*’s satisfaction, likely to be able to meet, on or before the proposed date of transfer of registration, all the requirements to be registered by the *EMC* as a *market participant*.

What type of load registered facility is eligible for transfer of registration?

The registration of any type of *load registered facility* is eligible for transfer, if after the transfer of registration to the proposed transferee:

- the *load registered facility* remains capable of meeting all relevant technical requirements set forth in the *market rules*, any applicable *market manuals* or the *system operation manual*; and
- the proposed transferee is able to perform all the functions and obligations applicable to it under the *market rules*, *market manuals* and the *system operation manual* in respect of the *load registered facility*.

When must you file this form with the EMC?

Under the *market rules*, you must file a request for transfer of registration with the *EMC* at least 10 business days before the proposed date of transfer of registration. Please be reminded that the *market rules* also require you to provide a copy of this form to the *transmission licensee* and the *PSO* at the same time.

When will the transfer of registration be effective?

The transfer of registration of your *load registered facility* will take effect on the effective date of transfer of registration, which is the later of, the proposed date of transfer of the registration (as specified in the request made via this form), or the 10th *business day* from when the *EMC* is satisfied that the request satisfies all the requirements of section 6.2.1 of Chapter 2 of the *market*

[†] The term ‘effective date of transfer of registration’ as used in this form, in respect of a *load registered facility*, means the actual date on which the transfer of registration of that *load registered facility* is effected by the *EMC* under section 6.2.2 of the *market rules*. Please also see the section under the heading “**When will the transfer of registration be effective?**”.

rules and of this *market manual*. Notwithstanding the foregoing, the EMC may agree with you and the proposed transferee to effect the transfer of registration of your *load registered facility* on a different date, in which case 'effective date of transfer of registration' shall mean such agreed date

Notwithstanding the foregoing, the EMC's transfer of registration of your *load registered facility* shall be subject to the EMC being satisfied, on the effective date of transfer of registration of the *load registered facility*, that the following conditions are satisfied:

- the proposed transferee is a *market participant* and is not a *suspended market participant*, and
- the proposed transferee holds (or is exempt from holding) a valid and relevant *electricity licence* permitting its *participation* in the *wholesale electricity market* and its causing or permitting any relevant *physical service* to be conveyed into, through or out of the *transmission system*, to or from the *load registered facility*.

The EMC will notify you and the proposed transferee in writing of the outcome of your request. If your request is declined, the notification will identify why this was the case.

A duly and accurately completed form will expedite EMC's processing of your request for transfer of registration.

It is strongly recommended that you do not change any current information relating to the *load registered facility* which registration is to be transferred, except where permitted or required by sections C, D and E of this form. Doing so might require the *load registered facility* to be retested and would delay the approval of the transfer of registration.

What should you do if you wish to transfer the registration of more than one *load registered facility*?

Please fill in a separate form for **each** *load registered facility* which registration is to be transferred. To do this, you can download additional copies of the form from the EMC website: www.emcsg.com.

Is there an application fee for your request to transfer your *load registered facility*?

There is no application fee payable for your request to transfer the registration of your *load registered facility*.

	<p>on the effective date of transfer of registration.</p> <p>The <i>EMC</i> will advise the transferor and the proposed transferee of the effective date of transfer in an official notice. If the request is declined, the <i>EMC</i> will write to the transferor and the proposed transferee stating the reasons.</p>

SAMPLE CERTIFICATE AND UNDERTAKING [To be set out on the proposed transferee's letterhead.]

CERTIFICATE AND UNDERTAKING

To: Energy Market Company Pte Ltd
(hereinafter referred to as the "EMC")

We, [■state name of the proposed transferee], refer to the Request for Transfer of Registration of Load Registered Facility submitted by [■state name of the transferor] (the "Transferor") dated [■state date] for the transfer of the registration of [■identify the relevant *facility* here] ("the Facility") as a *load registered facility* under the *market rules* and applicable *market manuals* of the EMC ("the Request").

Pursuant to the Request, we hereby confirm, certify and undertake to the EMC (with a view to the EMC relying upon our confirmations, certifications and undertakings herein in considering the Request) that:

- 1) we will have, on and from the effective date of transfer of the registration of the Facility by the EMC, operational control and authority over the Facility for the purposes of the *market rules*;
- 2) all the facilities and equipment, to which this Request relates, meet all applicable technical requirements under the *market rules*, the applicable *market manuals* and the *system operation manual*;
- 3) we have adequate qualified personnel and organisational and other arrangements that are sufficient to enable us to perform all of our functions and obligations as may be applicable to us as *market participants* under the *market rules*, the applicable *market manuals* and the *system operation manual*, including reliable services during normal and emergency situations, in respect of our participation in the *wholesale electricity market*;
- 4) we are willing and able to assume, and will assume, control of the Facility with effect on and from the effective date of transfer of registration of the Facility; and
- 5) we will comply with all provisions of the *market rules*, the applicable *market manuals* and the *system operation manual*, and any *contracted ancillary service contract*, as applicable to the Facility, as if we are the Transferor with effect on and from the effective date of transfer of registration of the Facility.

Our confirmations, certifications and undertakings herein shall be governed by and construed in accordance with the laws of the Republic of Singapore. All italicised expressions used herein shall have the same meanings respectively ascribed to them in the Singapore Electricity Market Rules of the EMC.
