Based on the Singapore Electricity Market Rules

Application form for Market Participant Registration

including explanatory notes.
Please read this important information before completing this form.

Why do I need to complete this form?

Energy Market Company Pte Limited (“EMC”) is licensed by the Energy Market Authority (“Authority”) to operate the wholesale electricity market in Singapore. One of the EMC’s responsibilities is to manage the registration of market participants in the wholesale electricity market. You must complete and submit this form to apply to be registered as a market participant if you wish to:
- participate in the wholesale electricity market and/or
- convey any physical services through the market’s facilities.

If you hold more than one electricity licence and intend to perform different functions pursuant to those licences in the wholesale electricity market, you must submit separate application forms for each function.

If you have a generation facility and intend to register it, then you must complete a separate form entitled ‘EMC Facility Registration Form’ where you are required by the Singapore Electricity Market Rules (the ‘market rules’) to register your facilities.

Why has EMC developed this form?

The EMC has developed this form to facilitate the registration process described in the market rules. You should read the relevant sections of the market rules prior to completing the forms. Please also refer to the EMC disclaimer at the end of this form.

Am I eligible to apply as a market participant?

Before we can fully register you as a market participant, you must show to EMC’s satisfaction that you:
- hold a valid electricity licence or are exempt, by an order issued by the Authority, from the obligation to hold such a licence;
- fall within one of the classes of persons who may apply for registration as a market participant (see below); and
- have executed the PSO/market participant and MSSL/market participant agreements.

What ‘classes of persons’ may apply for registration?

The classes of persons who may apply for registration as a market participant are:
- generation licensees;
- retail electricity licensees;
- persons, other than generation licensees or retail electricity licensees, that hold have been granted an electricity licence by the Authority permitting them to trade in the wholesale electricity market or are exempt, by an order issued by the Authority, from the obligation to hold such a licence;
- transmission licensees; and
- any Government department that generate electricity before the market rules come into force.

What if EMC needs further information and clarification?

The EMC will, within 10 business days of receipt of your completed participant registration application form, request in writing any further information or clarification required by the EMC to process your application. It is important that you respond promptly to the EMC’s requests in writing. If the EMC does not receive the requested information within 15 business days from the date of its request, then your application will be deemed to have been withdrawn and you will be required to submit a new application (unless you and the EMC have agreed a longer time for this process).

All communication between the EMC and market participants will be in writing.
When will I know the outcome of my application?

The EMC will notify you in writing of the outcome within 20 business days of the receipt of your fully completed registration form or any further information or clarification requested by the EMC, whichever is the later (unless you and the EMC have agreed a longer time for this process). If your application is declined, the notification will identify why this was the case. A complete and accurate form will help the EMC to process your participant registration application within the above stated period.

Is there an application fee for market participant registration?

There is no application fee for market participant registration.
